## Question-4:

**Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.**

The screenshot displays the IBM Watson Assistant Lite web interface. The top navigation bar includes the product name 'IBM Watson Assistant Lite', an 'Upgrade' button, the day 'FRIDAY', and a 'Learning center' link. The main content area is titled 'Actions' and features a left-hand sidebar with navigation options: 'Created by you', 'Set by assistant', 'Variables', 'Created by you', 'Set by assistant', 'Set by integration', and 'Saved responses'. The 'Created by you' section is active, showing a table of actions.

Below the table, it indicates 'Items per page: 50' and 'Showing 1-4 of 4 actions'. On the right side of the interface, a 'Preview' window is open, showing a chat conversation. The chat starts with a system message: 'Welcome, how can I assist you?'. The user inputs 'hi', which is recognized. The user then inputs 'i want my nutrition schedule', which is also recognized. The chat preview shows the system's response: 'here is your schedule'. The interface also includes a 'Use the up arrow for prior messages' instruction.

### Question-5:
